RIBSAM'S "EVERGREEN" LAWN GRASS SEED

From yearly comparative trials, has proved to be unsurpassed for first-class and permanent results. We use only the very finest varieties of the most suitable grasses, thoroughly recleaned, free from all chaff and weed seeds. This seed will produce a green, smooth, velvety sod free from such varieties of common grasses as produce clumps and knots on the lawn, which so frequently spoil the desired smooth and deep effect.

RIBSAM'S "CHOICE" LAWN GRASS SEED

This is composed of choice selected grasses, with White Clover, of neat compact growth and will produce fine sward.

RIBSAM'S "SHADY NOOK" LAWN GRASS MIXTURE

Usually it is quite difficult to obtain a satisfactory growth of grass under trees and in shady places. For sowing in such places we recommend the use of this special mixture. It will quickly produce an abundant and even growth of beautiful green grass. The grasses used in making this special mixture are only those that are well adapted for growing in shade.

RIBSAM'S "TERRACE" GRASS SEED

Realizing the difficulty experienced by the majority of lawn makers in getting a thick turf which will hold the soil on terraces and high slopes and prevent washing by heavy rains, we have, after much experimenting, established a mixture which admirably fills this need. This mixture has been carefully blended so as to contain various grasses of rapid, dense, even growth and strong root system which will insure a permanent, beautiful slope.

Dear Patrons and Friends:

We are all aware of the present Government defense program as well as a general upturn in business. With this stimulus we can anticipate improved buying power and a greater demand for the products of the Florist Market Grower and Home Gardener, with healthier prices to the producer.

Conditions in Europe has temporarily affected some of the seed supplies required in this country, also unfortunately this past season was not too kind with some of our own crops, and thus caused small deliveries in some varieties. This has necessitated, unfortunately, some price changes and elimination of a few varieties. All seeds are offered subject to prior sale and to price changes without notice.

You may rely upon your orders being filled in the regular Ribsam manner of promptness and Usual High Quality. Our Seeds will be found of High Germination and of the latest crop yields.

Yours for a most successful season.
